

## Scott Klososky

Technology Entrepreneur, Consultant, Author, & Founder, TriCorps Technologies

Throughout his career, Scott Klososky has lived on the leading edge of technology innovation and its impact on the business world and society in general. Invested in guiding leaders through digital transformation, he is recognized globally for his unique ability to accurately predict future digital trends and provide the logic behind why they will alter the current status quo.

In speeches, Klososky has the ability to enlighten audiences while also translating difficult-to-understand technology topics. Known for tailoring each presentation specifically for the audience, and with the very latest information available, he discusses a wide range of topics including the importance of organizational digital maturity, leading through digital transformation, cybersecurity, machine intelligence, data intelligence, trendspotting, digital marketing, and best practices for digital governance. Equally adept at giving large stage keynotes, speaking to small boards of directors, facilitating half- and full-day workshops, and doing break-out sessions, he has developed a reputation for delivering informative, thought-provoking, and entertaining presentations.

The founder of numerous successful technology startup companies, Klososky has gained a unique perspective into technology's impact on industry and humanity. He is not just an observer of digital trends, but also routinely invests in his future visions with a great track record of success. This unique perspective and future vision has allowed Klososky to travel the globe as a speaker, consultant, and author, working with senior executives from the Fortune 500 to universities, nonprofits, and countless professional associations and coalitions. As a technology entrepreneur, he also continually works in the trenches of building his own companies.

Klososky is the founding partner of TriCorps Technologies, a digital strategy and cybersecurity firm based in Oklahoma City, focused on not only helping clients raise revenue and lower costs but also on protecting their organizations' resources in both the physical and digital worlds. At TriCorps, Klososky has developed a pioneering integrated security model which provides a systematic approach to organizational security. TriCorps Technologies represents a merger between Future Point of View, a digital strategy firm Scott founded in 2007, and TriCorps Cybersecurity, a venture he co-founded in 2015.

He is also the founder and minority investor of Alkami Technology, a tech startup that developed a 2nd generation online banking platform with innovative features nonexistent in current systems. The privately-owned software company focuses on providing online account management solutions to the financial services industry.

Klososky is the author of four books discussing the power of technology, including his most recent title, *Did God Create the Internet? The Impact of Technology on Humanity*.

### **Additional Noteworthy Accomplishments:**

- Klososky's journey to becoming a leading voice in the field of technology began fresh out of high school, where his job as a delivery boy was a springboard into the world of technology. He became division head of a computer sales division and then purchased it as his own company. It was eventually built into a twelve-store operation in three states.
- Klososky was a founder and CEO of webcasts.com, an early producer of webcasted media ranging from corporate and government communications to sporting events and entertainment. He sold webcasts.com in 1999 for \$115 million.

- He was the founder and CEO of Paragraph, Inc., a Soviet/American joint venture founded in 1988, despite international tensions. Half of the company was sold to Silicon Graphics, and the other half is still expanding today (Parascript, Inc.).
- Klososky also collaborated with H.R. Haldeman to publish a diary of his years as the chief of staff to President Nixon, which became a best-seller (Putnam Publishing) and involved Sony Interactive in the release of a book companion CD-ROM.
