

Kevin Mandia

President of FireEye and Cyber Security Expert

Kevin Mandia is the President of FireEye, a global cyber security company that protects organizations from cyber attacks. FireEye's customers include over 200 of the Fortune 500 and major government organizations around the world. As President, Kevin helps organizations prepare for and respond to cyber attacks. His experience gained serving on the front lines of major cyber security incidents is routinely requested by corporate directors, executives, and government officials who face serious cyber security challenges.

Prior to serving as FireEye's President, Kevin founded Mandiant Corporation and served as CEO for 10 years. As CEO, Kevin grew a profitable, self-funded organization to approximately 500 employees and over \$100M in revenue. FireEye acquired Mandiant for approximately \$1 billion. Kevin began his career in the United States Air Force. He served as a computer security officer in the 7th Communications Group at the Pentagon, and later as a special agent in the Air Force Office of Special Investigations (AFOSI), where he worked as a cybercrime investigator.

In the private sector, Kevin served as a director in the security consulting divisions of Sytex (Lockheed Martin) and Foundstone (McAfee). In these roles, he helped organizations address information security challenges including incident response, computer forensics, law enforcement support, counterintelligence, and litigation support.

Kevin has co-authored two books on responding to security breaches, *Incident Response: Performing Computer Forensics* and *Incident Response: Investigating Computer Crime*. He provides regular commentary and analysis on cyber security issues for national print and broadcast media, including NBC News, CBS, NPR, Fox News, CNN, the *New York Times*, and the *Wall Street Journal* and has been profiled on the cover of *Fortune* magazine. He has testified as an expert in U.S. federal court, and has also provided testimony in hearings before the U.S. House and Senate intelligence committees. In 2013, Kevin was recognized by Foreign Policy as a leading global thinker.

Kevin has taught advanced graduate classes on cyber security at both the George Washington University and Carnegie Mellon University. He has also developed specialized cyber security curricula for organizations including the Federal Bureau of Investigation, the United States Attorney's Office, United States Secret Service, the United States Air Force, and other U.S. government agencies.

Kevin holds a bachelor of science in computer science from Lafayette College and a master of science degree in forensic science from the George Washington University. He completed the three-year Harvard Business School Owner/President Management Program in February of 2013. In 2011, Mr. Mandia was named Ernst & Young Entrepreneur of the Year for the Greater Washington area.
