

Vince Poscente

CEO of The Goal Acceleration Institute & NY Times Bestselling Author – The Age of Speed

BIG GOALS In Short Order: Vince uses his signature wit and wisdom in his unforgettable recreational skier to Olympics in four years story. Each keynote is tailored to the specific needs of the audience. (Content has been updated to reflect the unique challenges of today.)

He knows the key to making a message stick with an audience is to provide an experience. A Vince Poscente keynote speech is an experience you're not soon to forget. He blends a high-energy presentation style with humorous anecdotes, powerful visual and audio tools, and meaningful content designed to educate and edify while it entertains.

Vince's speech resonates long after the event itself because he so completely engages the minds—and bodies—of audiences. Painting a vivid picture, Vince perches on a chair and physically acts out the thrill of skiing 135-mph down a steep, icy slope. He asks audience members to perform a happy dance and participate in their own Olympic Opening Ceremony, transporting his audiences through music and reenactment. His warmth invites trust; his stories engender an emotional bond.

As the content cornerstone of his keynotes, Alignment, Agility and Efficiency are presented in a practical, hands on manner. The audience learns a fundamental yet powerful message integral to The Goal Acceleration Institute's process: Do What the Competition is Not Willing To Do. The single-event speech is designed to get audiences excited and, by providing a moving experience, to hardwire its lessons into their psyche. In order to achieve long-term results, however, it's advisable to follow-up the keynote with our business consulting services and learning tools that customize, reinforce, and expand upon the messages.

Accelerate REINVENTION. A new keynote designed to help audience members reinvent, reignite and rejuvenate in the business of life. Vince Poscente switches setback into set-free. This is fast and fun way to redefine how you thrive in a competitive marketplace.
