

Cecilia MoSze Tham

Co-Founder of FutureFunded, Entrepreneur, Activist, Singularity University Fellow and Ambassador

Humanity in the age of Radical Converging Technology. With the shifting of power and an increase access to resources, how can we as individuals and as collectives, as communities and as nation states, leverage our ever-growing extent of the most advance exponential technology, to change our mindset, our behaviors, our actions and our contributions for a better self and a better future?
