

Frank Ahearn

Privacy Expert & Author

Ahearn opens with his skip tracing (finding people) & social engineering (lying to obtain information) background and demonstrates how private information is extracted. He does this by discussing real cases of how he obtained phone records, bank records, airline records and anything else he needed to locate person.

The previous brings Ahearn to when he met a corporate whistleblower who asked him to help him disappear. Frank discuss, new identities, fake identities, camouflage passport, how not to disappear and finally what one must do to disappear.

The wrap up introduces the final points of how individuals can protect their personal and business privacy.
