Chris Tarbell & Hector Monsegur

Cyber Security Expert Speakers

Cyberchat Q&A: Insights for Elevating Cyber Resilience in Your Organization. Once adversaries in the cybersphere, Hector Monsegur and Chris Tarbell have joined forces to arm companies against the dangers to their systems that exist within the cyberthreat landscape. In this audience-centered discussion, they draw from their extensive backgrounds battling against and alongside each other and coming face-to-face with — and defeating — the digital world's most ruthless threats to answer the questions that matter most to the members in attendance and their organizations. In a lively back-and-forth conversation, Monsegur and Tarbell break down the biggest risks that exist in today's ever-evolving cyber landscape from the unique perspectives of a former "black hat hacker" and FBI special agent. Together, they provide actionable frameworks that any organization can apply to secure its systems and protect against threats that could potentially paralyze operations and stifle business.
