Jeremiah Grossman

Founder and CEO, Bit Discovery and CSS SentinelOne

Nothing's Off Limits: Security Strategy in the 21st Century Jeremiah Grossman is one of the most celebrated "good hackers" of the day. After teaching himself to code at age eight and working to secure Yahoo!'s networks at the age of 18, he has lived a literal lifetime in computer security to become one of the most trusted cyber security sources today. With this talk, he looks at the rise of new threat actors including hacktivists, cyber criminals, and nation states, as well as the emergence of new tactics and software such as ransomware, malware, and economic warfare. Jeremiah shares with audiences the tips and tools they need for securing their personal and professional networks now and also looks forward, offering hints of what's to come and potential solutions to the headaches of the future.
