Mike Ciannilli

Former NASA Test Director, Space Shuttle Veteran, and Flight Safety Leader behind NASA's Apollo, Challenger, and Columbia Lessons Learned Program

Preventing Failure: Lessons Learned To Lessons Applied. Mike Ciannilli works with leaders in high-consequence systems to prevent repeat failure by turning hard-earned lessons into disciplined operational change. It addresses why intelligent, data-driven organizations continue to repeat the same mistakes. The session focuses on the breakdown of learning under pressure and provides a structured discipline to ensure hard-earned lessons change future decision-making.
