Pippa Malmgren

Economist, Former White House Advisor & Global Geopolitical Strategist

Geopolitics, AI & the New Global Economy How artificial intelligence, technological disruption, economic fragmentation, and geopolitical rivalry are reshaping global markets, business strategy, and the future balance of power.

Leading Through Volatility & Uncertainty Drawing on experience at the White House, in financial markets, and advising global leaders, Dr. Pippa Malmgren explores how organizations can navigate disruption, make decisions under pressure, and build resilience in unpredictable times.

The Future of Globalisation, Trade & Economic Power An expert analysis of the forces transforming the world economy, from supply chains and energy security to deglobalisation, strategic competition, and the rise of new economic powers.

Innovation, Technology & Strategic Advantage Exploring how emerging technologies including AI, autonomy, defence tech, and digital transformation are changing industries, governments, and leadership, and what organizations must do to stay competitive.
