Preet Chandi

Fastest Woman to Complete a Solo Expedition to the South Pole

THE POWER OF FAILURE Why failure is the foundation of success. From military service to Antarctica, Preet shares how setbacks, rejection, and failure became the catalyst for growth, resilience, and extraordinary achievement. Audiences learn how to reframe failure, build confidence through adversity, and develop the courage to keep moving forward. This keynote leaves audiences with a new relationship to failure: seeing it not as something to avoid, but as the training ground for everything that matters.

BEYOND THE COMFORT ZONE Where resilience is built and potential is realised. Growth rarely happens in familiar territory. Through powerful stories and practical insights, Preet challenges audiences to embrace discomfort, overcome self-imposed limits, and unlock higher levels of performance. In a world reshaped by AI and constant change, this keynote also explores what it takes to lead through uncertainty. How to become comfortable with risk, make sound decisions with incomplete information, and build the confidence to move forward when the ground keeps shifting.

THE GROWTH MINDSET What the world's harshest environment teaches us about leadership. Three solo expeditions across Antarctica revealed timeless lessons about resilience, preparation, decision making, and perseverance. This keynote translates those experiences into practical strategies for modern leaders and teams. Audiences come away with a clearer understanding of how to prepare for what they can control, adapt when they can't, and lead others through the same.
