

Priyanka Rao

AI Expert & Strategist, Founder & CEO of AI Champions

Coworking with AI: How People and Technology Thrive Together Priyanka Rao helps audiences reimagine the future of work, where people and AI collaborate instead of compete. With practical strategies drawn from her global clients, she shows how to reduce fear, boost productivity, and create a culture of curiosity and innovation by integrating AI into daily workflows. Audiences will learn: How to shift from seeing AI as a threat to seeing it as a partner. Practical strategies to integrate AI into everyday tasks and workflows. Ways to build trust, curiosity, and engagement across teams.

The Human + AI Workforce: Reskilling Talent for the Future of Work Digital transformation isn't just about technology, it's about people. In this session, Priyanka Rao explores how jobs are evolving and how organizations can reskill employees to stay competitive. She shares strategies for redesigning roles, developing future-ready skills, and empowering teams to embrace change with confidence. Audiences will learn: Which roles and skills are most impacted by AI, and how to adapt. How to reskill employees quickly and effectively across industries. A roadmap for creating a future-ready, innovation-driven workforce.

AI-Ready Leadership: Guiding Culture and People Through Disruption Priyanka Rao equips leaders with the mindset and tools needed to navigate digital disruption. She emphasizes trust, communication, and cultural change as the keys to successful AI adoption. Audiences learn how leaders can overcome resistance, inspire innovation, and create environments where both people and technology thrive. Audiences will learn: The leadership shifts required to guide people through disruption. How to build trust and buy-in for AI adoption at every level. Strategies to create cultures of resilience, agility, and innovation.
