Tim Pawlenty

Former Governor of Minnesota, Former Republican Presidential Candidate

The Intersection Of Finance & Politics Tim Pawlenty is in a unique position to address the intersection of politics and finance. Having led an impressive career in both arenas, he shares insider political stories and conveys thoughtful approaches to the most pressing public policy issues of our time, looking at financial policy in-depth and analyzing the changing nature of finance systems and the governance of the global economy. With clarity and upbeat energy, he addresses how politics as a whole affects both the business community and personal finances, looking at issues like regulation, taxes, unemployment rates, inflation, banking, and financial reform.

Political & Election Analysis Tim Pawlenty is a former governor of Minnesota and a former candidate for the Republican nomination for President of the United States. One of the leading voices in the Republican Party, he is in a truly unique position to critique our current political environment, having heard the grassroots issues from a wide range of concerned citizens during his campaign. He also experienced firsthand how campaign finance rules and the media affect elections. In his presentations, he addresses our current political climate in a way that only someone who has traveled the country running for president and has successfully served as governor could. He discusses election analysis, what is next for the GOP, and the issues facing decision makers on Capitol Hill—from taxes, the economy, and the deficit to healthcare, education, and social issues.

Issue-Based Politics Tim Pawlenty is one of the leading voices in the Republican Party. While governor of Minnesota, he used innovative and conservative leadership to balance Minnesota's budget, cut spending, reform healthcare, and improve schools without raising taxes. Due to his leadership, Minnesota had nation-leading healthcare, the highest school test scores, and a leading economy. In his presentations, he addresses our political issues like healthcare reform, taxes, education, renewable energy, creating jobs, the economy, and the deficit.

Understanding Politics & Government's Impact On Your Business Tim Pawlenty shares insights on leadership, public service, government, and policy. He explains how he successfully governed as a Republican in his left-leaning state of Minnesota, including eliminating the state's deficit, reforming healthcare and education, creating jobs, and supporting renewable energy reform—all without raising taxes. He also shares his beliefs and his vision for how to improve America. In his presentations, he addresses the current political environment with a focus on policies and solutions for our country's challenges from the Republican perspective.

Lessons In Leadership Tim Pawlenty discusses the leadership lessons he has learned in government, including leading as a Republican in his left-leaning state of Minnesota and on the Presidential campaign trail. He addresses what it takes to get things done successfully in a bi-

partisan environment.
