Adam Mizel

Co-Founder and CEO of US United, Advocate for National Unity, Corporate Board Member

Hope in Action: Building Unity in a Divided World. Division is pervasive in our culture today and is challenging us all every day in our personal and professional lives. Adam's keynote will provide audiences with the inspiration and tools to build unity in their relationships and on their teams to achieve levels of success that previously seemed out of reach. To do that, Adam will authentically and with vulnerability take the audience along his personal journey on the "Highway to Unity" to find the hope, compassion, respect and out of the box thinking critical to becoming a unifier. Audiences will leave with a roadmap to navigate this winding, traffic-filled and potholed highway and the confidence to make impact in their careers, their relationships and in service to their country.

WORKSHOP: 30 for US. Adam can lead a breakout session based on the US United monthly 30 For US program in which participants are randomly split into break out groups of 5-6 people for a 30 minute discussion on a current topic selected in conjunction with the event partner. This dialogue teaches civil discourse and supports the formation of deeper connections outside of our bubbles. It can also be tailored for an organization's goals for fostering conversation as well.
