

Catherine Rampell

Award-Winning Economic Journalist and Policy Commentator

Economic Trends and Policy Insights Catherine Rampell offers insightful analysis on pressing economic issues facing the nation. Her presentations cover critical topics including: the economic outlook for this year, examining key trends and forecasts that will shape business decisions in the coming year; the rise of protectionism and its implications for global trade and domestic markets; and the outlook for 2025 tax reform, exploring potential changes to fiscal policy and their impact on businesses and individuals. Drawing from her expertise as an economic commentator, Rampell provides audiences with clear, compelling perspectives on complex economic matters.
