

Michio Kaku

World-Renowned Theoretical Physicist & Futurist

The Future Of The Mind In this talk based on his newest book, *The Future of the Mind: The Scientific Quest to Understand, Enhance, and Empower the Mind*, Dr. Michio Kaku illustrates the stunning breakthroughs being made in neuroscience, which are finally beginning to unravel the mysteries of the most complex object in the known universe: The human brain. Dr. Kaku takes audiences on a grand tour of what the future might hold, explaining how the brain functions and how technologies will change our daily lives. He will present a radically new way to think about “consciousness” and provide fresh insights into mental illness, artificial intelligence and alien consciousness. Now, learn how what was once solely thought of as science fiction has become a startling reality.

Physics Of The Future In this presentation based around his book, *Physics of the Future: How Science Will Shape Human Destiny and Our Daily Lives by the Year 2100*, speaker Michio Kaku offers a stunning and provocative vision of the future. Based on interviews with over 300 of the world’s top scientists, Kaku presents the revolutionary developments in medicine, computers, energy, quantum physics, and space travel that will change our lives and alter the course of civilization itself.
