Peter Morici

Economist and Author; Emeritus Professor at the Smith School of Business, University of Maryland

The National Economic Forecast Peter Morici's economic analysis and forecasting is sought after by corporations, associations, and even Senate committees. He delivers a no-nonsense and deeply reasoned presentation about the up-to-minute happenings in the economy and markets, both globally and domestically. As one of the most consistently accurate economic forecasters, Morici gives audiences an accessible picture they can get their arms around, and without sugarcoating the data or giving it a political spin. In uncertain economic times, his straightforward economic analysis and accessible communications style provides real answers to the important questions.
